# Our opening hours / vacations

Daily opening hours are based on children's care needs – currently from **7:00 am to 5:00 pm**.

You can choose:    Half-day    6 hours with/without meals (max. until 13:00)  
                                 Full-day    8 hours / 10 hours

You inform us about the actual attendance time (from - to).

The length of stay of a child must not exceed 10 hours.

During the **Christmas and Easter vacations**, a query is made for a substitute facility in the immediate vicinity.

During the **summer vacations**, a needs assessment decides whether we can open our facility. From experience in recent years we have had:

1 group open in the first 4 vacation weeks

5th - 8th vacation week choose an alternative facility and  
in the 9th vacation week all facilities are closed

# Care costs

The costs of care in the kindergarten consist of the care **and** meal contribution.

## Reductions

Depending on your family's income and the rule for multiple children, you can apply for a reduction at the service office in the districts of the city of Graz.

As a **full-paying** child in 2022/23 **for example**:

half day € 220,79 , with 8 hours € 269,60 and with 10 hours € 318,41.

For 5-year-old children in the last year of kindergarten, no care costs are charged for the morning.

You can find the exact contributions in the **tariff table** - on the Internet at:

## Additional costs

**Material contribution : 8 € monthly**

We provide a varied snack buffet.

**Snack contribution :** Full-day 15 € monthly

Half-day 12 € monthly

# 4 groups - open work

Our **4-group kindergarten** was merged into  
two open group associations.

The open system allows the children a variety of  
play material and space.

## **Villa Kunterbunt    &    Rainbowland**

2 full-day groups  
07:00 - 16/17:00

1 full-day group	7:00 – 16:00
1 half-day group with integration	7:00 – 13:00

# What open working means for us:

- An **open attitude**, open thinking, new angles and new perspectives.
- Seeing the group as a living and development space.
- Clear rules, daily routines and structure enable the child to make decisions and choices.
- The children can organize their day individually.
- Independence, personal responsibility, independent action and thinking are at the forefront of the child's development.

# Our daily routine

# Snack & Lunch

You do not have to bring a snack. We organize this with their monthly €-contribution. The **snack** is offered to children as a buffet, with attention paid to a healthy, varied and balanced diet.

**Fruit and drinking water** are available for free consumption at any time.

**Lunch** takes place in the individual groups in the respective dining area from 11:30 - 12:45.

Lunch is provided by the central kitchen ("cook and chill" system). There is a choice of two menus, one of which is vegetarian.

# Cooperation between kindergarten and after-school-care

This results in a **pedagogy of diversity** (e.g. open groups, cross-age family groups in the summer, holistic pedagogical methods adapted to the child's stage of development).

The Nippelgasse kindergarten and after-school care center are intended to be a house of encounter where children, parents and staff feel **warmly welcomed** and comfortable.

## Motto:

*"We grow together slowly"*

*"Individually we are good, together we are better".*

*"Let's pull together now"*

# Location consolidation of kindergarten and after-school-care

Through a common management  
a common thread runs through the  
**educational landscape** for  
**3 to 15 year olds.**

Through **networked work** in a  
large team, the  
**exchange of resources**  
creates a valuable **"WE" feeling.**

It enables parents to plan long term,  
and when changing facilities, the  
familiar management is available as  
a contact person.

It simplifies the contact of both  
facilities with parents and **siblings.**
